

# Air Handler Units

Our "Air Handlers" are custom designed and manufactured using state of the art technologies.

## Air Handling Units

- Stainless, aluminum or galvanized steel
- Stainless steel, aluminum, coated structural steel or hot dipped galvanized steel base material
- Modular design (*knock down for installation through a 3 foot door*)
- Customer specified design conditions
- Copper/Copper Coils available
- Corrosion protection coatings
- Heat (electric, hot water or steam)
- Customer specified electrical classification (*NEMA 1, 3R, 4, 4X or 7*)
- Optional disconnect switches or combination starters
- Special filtration requirements

## Custom Designed Package Units

- Customer specified cabinet materials (stainless steel, aluminum or galvanized steel)
- Customer specified skid materials (stainless steel, aluminum, coated structural steel or hot dipped galvanized steel)
- Copeland scroll compressors
- Hermatic compressors & R-22 & H10A
- Customer specified electrical classification (NEMA 1, 3R, 4, 4X or 7)
- Hot gas bypass for low load applications
- Remote air cooled
- High ambient operation
- Low ambient controls

## MCC and Switchgear HVAC

- Compliant with NFPA 496
- Redundancy per customer specifications
- General purpose, explosion proof or zone rated
- Custom solution or modified equipment from major manufacturer

## Chemical Filtration Scrubbers

- Stainless steel, aluminum or galvanized steel
- Stainless steel, aluminum, coated structural steel or hot dipped galvanized steel base material
- Deep bed or trays
- Special filtration requirements

All Systems Designed, Built or Modified in Compliance with Applicable standards:  
**ABS - ADA - ASHRAE - DNV - IEC - NEC - NFPA - SMACNA**

**"We Design, Build, Install & Service HVAC Systems"**
