

Electrical Modification - Explosion Proofing

Custom Air Products and services specialize in Explosion Proof Systems. All systems are designed and tested to meet EC, IEC and CSA standards.

Research & Development

Research and Development CAPS aims to discover new knowledge through systematic use of research and practical experience. Through applied research CAPS creates new and improved systems to meet many industrial, commercial and offshore.

Electrical Modifications & Controls

Equipment can be custom manufactured from scratch or modified to meet your industry area classifications:

- Construction to meet NEC requirements for Division 1 & Division 2, Groups B, C & D hazardous locations.
- Construction to meet IEC requirements for Zone 1 & Zone 2 hazardous locations.

***“We Design, Build, Install
& Service HVAC Systems”***

*All Systems Designed & Built in Compliance with Applicable standards:
ABS - ADA - ASHRAE - DNV - IEC - NEC - NFPA - SMACNA*
