

Portable Equipment

Custom Air Products & Services, Inc. is the leading manufacturer of custom equipment built for the **Portable HVAC Rental industry.**

Chilled Water Air Handling Units

- Customer specified cabinet materials (stainless, aluminum or galvanized steel)
- Customer specified skid materials (stainless, aluminum, coated structural steel or hot dipped galvanized steel)
- Customer specified design conditions (100% outside air or recirculated air applications at design external static pressure)
- Customer specified electrical classification (NEMA 4, 4X or 7)

Air Cooled Package Units

- Standard sizes of 10 tons to 80 tons (100% outside air)
- Customer specified cabinet materials (stainless, aluminum or galvanized steel)
- Customer specified skid materials (stainless steel, aluminum, coated structural or hot dipped galvanized steel)
- Customer specified electrical classification (NEMA 4, 4X or 7)
- Carlyle semi-hermetic compressors utilizing R22 or Copeland scroll compressors utilizing R410A
- Hot gas bypass to tow load applications
- Low ambient controls

Electric Heaters

- 75 or 150 kW
- Staged or Vernier SCR
- Customer specified cabinet materials (stainless steel, aluminum or galvanized steel)
- Customer specified skid materials (stainless steel, aluminum, coated structural steel or hot dipped galvanized steel)
- Customer specified electrical classification (NEMA 4 or 4X)

All Systems Designed, Built or Modified in Compliance with Applicable standards:

**ABS - ADA - ASHRAE - DNV
IEC - NEC - NFPA - SMACNA**

"We Design, Build, Install & Service HVAC Systems"

Don't need a custom manufactured solution? We can skid-mount, electrically modify, and provide corrosion protection for just about anything you can think of involving HVAC portable rental equipment. Drop us an email or call us to discuss your equipment needs for the future.
